

Helical Antenna Especially Accomodated to the
Stornophone 800 Handportable for the 450 MHz Band

DESCRIPTION

- Short conical steel helix moulded in flexible thermoplastic rubber.
- Reduced-size ¼ λ helical antenna whip.
- Optimum performance compared to physical dimensions.
- Nice and compact design.
- Especially designed for the Stornophone CQP 800
- (450 MHz band).

ORDERING

Type	Product No.
AN 864	140000155

SPECIFICATIONS

Electrical	
Model	AN 864
Frequency	Tunable 406 - 470 MHz (tuning done in handportable)
Antenna Type	Shortened ¼λ helical antenna
Polarisation	Vertical
VSWR	< 1.5:1
Mechanical	
Connection(s)	M 6 x 0.75 thread stud for Stornophone CQP 800 (450 MHz)
Materials	Steel helix moulded in flexible thermoplastic rubber
Colour	Black
Height	51 mm / 2.01 in.
Weight	0.016 kg / 0.04 lb
